Alaska Aerofuel Truck Rollover

SITREP # 3 and Final

SPILL #: 11309929201

TIME/DATE OF DISTRIBUTION: 12:00 August 3, 2012.

POTENTIAL RESPONSIBLE PARTY (PRP): Alaska Aerofuel Inc.

INCIDENT LOCATION: The spill occurred on Easy Street, about half a mile south of the Old Richardson Highway in Fairbanks.

TIME/DATE OF SPILL: 11:45 a.m. October 19, 2011.

TYPE/AMOUNT OF PRODUCT SPILLED:

Alaska Aerofuel Inc. estimates approximately 2,550 gallons of #2 minus 15 gallons heating oil (a blend of #1 and #2 heating oils used during the winter in Fairbanks) were spilled during the incident.

CAUSE OF SPILL: The spill was caused when the driver lost control of his truck on icy road conditions, hit a curb and rolled the truck on its side. A seam on the top of the tank failed and the fuel continued to spill until the truck was pulled upright at approximately 12:40 p.m.

SOURCE CONTROL: The truck was righted and removed from the incident location.

RESPONSE ACTION: Approximately 260 cubic yards of contaminated soil were removed from the site and taken to a local thermal remediation facility. The excavation area was backfilled after the confirmation soil samples were collected from the excavation area. **Sample results showed that there is contamination left in areas where excavation was limited by an underground natural gas line. Long term monitoring will be managed by ADEC Contaminated Sites.**

ADEC Drinking Water program specialists identified the drinking water wells within proximity of the incident and have evaluated potential receptors. The surrounding residential neighborhood is supplied by "City" water.

RESOURCES AFFECTED: There is a possibility that groundwater will be affected. The roadway right-of-way at the incident location has been affected.

FUTURE PLANS AND RECOMMENDATIONS: **This site has been transferred to ADEC Contaminated Sites Program for continued monitoring.**

WEATHER: Today: Mostly cloudy; 65°F; winds, calm.

UNIFIED COMMAND AND PERSONNEL:

Incident Commander: Bob Hawkings, Alaska Aerofuel Inc.

SOSC: Tom DeRuyter, ADEC

Field SOSC: Ashley Anderson, ADEC

TIME/DATE OF THE NEXT REPORT DISTRIBUTION: This is the final report.
