

ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION
Division of Spill Prevention and Response
Prevention and Emergency Response Program

SITUATION REPORT

INCIDENT NAME: F/V Nahanni Sinking

SITREP #: 1

SPILL NUMBER: 09229923401

LEDGER CODE: not requested

TIME/DATE OF SPILL: 8:30 PM, August 22, 2009

TIME/DATE OF SITUATION REPORT: 2:00 PM, August 24, 2009

TIME/DATE OF THE NEXT REPORT: As situation warrants

TYPE/AMOUNT OF PRODUCT SPILLED: There is a potential spill of 300 gallons of diesel and 40 gallons of lubricating oil. As of this report only light sheens have been reported.

LOCATION: Elrington Passage at Evans Island in Prince William Sound. The location is just outside of Sawmill Bay to the south west at a Lat/Lon of 60° 02.56'N, 148° 02.06'W

CAUSE OF SPILL: On August 22, the vessel struck a reef and began taking on water after delivering a load of fish.

POTENTIAL RESPONSIBLE PARTY (PRP): Ryan Rogers

RESPONSE ACTION: Good Samaritan vessels in the vicinity assisted in rescuing the crew and placing boom provided by the nearby hatchery. Pumps were unable to keep up with the in-flowing water and the vessel eventually rolled over with the stern up and the bow down. During the night on August 23, the vessel completely sank in an estimated 90 feet of water as determined by the still attached boom.

Alaska Chadux and Storm Chasers have been contracted by the PRP to assess and attempt to recover the vessel. Both have additional spill response and lightering equipment on- scene to prevent any further potential pollution impacts near Sawmill Bay.

SOURCE CONTROL: The vents on the fuel tanks were sealed by the crew before they abandoned the vessel.

RESOURCES AFFECTED: Waterfowl and otters are known to frequent the area and there is a hatchery around the point inside Sawmill Bay. Currently, none of these resources have been reported as having been impacted.

FUTURE PLANS AND RECOMMENDATIONS: Assess the vessel and recover it if possible. Strong tidal currents at the location hamper operations.

WEATHER: Today: Rain showers and patchy fog.

UNIFIED COMMAND AND PERSONNEL:

Incident Commander: Ryan Rogers

F.O.S.C.: CDR Darryl Verfaillie, USCG, Valdez

S.O.S.C.: Gary Folley, ADEC

FOR ADDITIONAL INFORMATION CONTACT: John W. Engles, ADEC Valdez (907) 835-4698
